

**Major Source Operating Permit Application
Compliance Demonstration by Monitoring Maintenance Procedures**

Form 70-23

The monitoring of a maintenance procedure shall be acceptable as a compliance demonstration method provided that a correlation between the procedure and the emission rate of a particular pollutant is established.

1	Facility name	
2	Stack ID (or flow diagram point identification(s))	
3	Emission source (identify and include equipment identification number)	
4	Pollutant(s) being monitored	
5	Procedure being monitored	
6	Description of the method of monitoring and correlation between the procedure and the emission rate of a particular pollutant	
7	Compliance demonstration frequency (specify the frequency with which compliance will be demonstrated)	
8	Page number	Revision number
		Date of revision
